ABOUT ME

Motivated B.Tech Artificial Intelligence and Data Science Student with strong knowledge in Python, Machine Learning, and Data Analysis. Interested in building data-driven solutions and applying analytical thinking to real-world problems.

EDUCATION

KPR Institute of Engineering and Technology, Coimbatore, Tamil Nadu

2024 – 2028

B.Tech-Artificial Intelligence and Data Science

CGPA: 8.68

SSRM Hr. Sec. School, Salem, TamilNadu

SSLC: 94.6 %

2021-2022

HSC: 89.3%

2023-2024

SKILLS SUMMARY

- Languages:** C, Python, Java, R, SQL, JavaScript
- Frameworks/ Libraries:** Pandas, NumPy, Scikit-Learn, Matplotlib, TensorFlow, React.js, Node.js, Express.js
- Tools:** Linux, PowerBI
- Domain/Technologies:** Machine Learning, Web Development, Data Science
- Soft Skills:** Adaptable, Time Management, Excellent Communication, Teamwork and Collaboration

INTERNSHIP EXPERIENCE

NoviTechR&DPvtLtd(DataAnalytics Intern)

Dec15, 2025 – Jan13, 2026

- Analyzed 10,000 records and built 3 interactive dashboards using Power BI, improving data insights.
- Performed data cleaning, visualization, and reporting using Python, Excel, and Power BI.

CODEALPHA (Data Science Intern)

Dec 20, 2025 – Jan20, 2026

- Worked on data preprocessing, exploratory data analysis, and machine learning models using Python.
- Applied data science techniques and visualization tools like Excel and Power BI to analyze real-world datasets.

PROJECTS

- Flood Prone Area Prediction.** [\[Project Link\]](#)
Developed a machine learning model with 87% accuracy to predict flood-prone areas using environmental data. Used Python and data analysis techniques to process datasets and generate predictions.
- COVID-19 Detection.** [\[Project Link\]](#)
Built a deep learning model to detect COVID-19 from medical images. Implemented the model using Python, TensorFlow, and image processing.
- Online Salon Booking Website.** [\[Project Link\]](#)
Developed a web application that allows users to book salon appointments online. Designed features for service selection, booking management, and user interaction.
- Automatic Hiring Process System.**
Created a system to automate candidate screening and hiring processes. Used data analysis and programming techniques to evaluate candidate information.

CERTIFICATES

Data Analytics, Data Science, Python Programming, Machine Learning Fundamentals

(2024-2025)

NPTEL-Introduction to Internet of Things 4.0

(2025)

ACHIEVEMENTS

- Won 1st Place in Paper Presentation at KSR College of Engineering and Technology for presenting a paper titled "Globetrotter"
- Secured 1st place-Innovex Storm Hackathon held in SRM Institute of Science and Technology
