AI & DATA SCIENCE STUDENT

Motivated AI & Data Science student at KPR Institute of Engineering and Technology with experience in Python, data analytics, and web technologies. Completed internships and developed projects focused on data-driven applications and problem-solving. Aspiring to apply technical and analytical skills in a challenging internship role.

EDUCATION

KPR Institute of Engineering and Technology

2024 - 2028

Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science | CGPA: 9.17

SKILLS

Python, C & Java

Data Analysis

Communication

SQL

Machine Learning

Problem-Solving Skills

HTML, CSS & JavaScript

Excel, Power BI & Tableau

Analytical Thinking

INTERNSHIP EXPERIENCE

NoviTech R&D Pvt Ltd

Data Analytics Intern

Dec 2025 – Jan 2026

Analyzed datasets using Python to support data-driven decision-making and performed data preprocessing and exploratory data analysis (EDA) using Pandas and NumPy. Built dashboards using Power BI, Tableau, and Excel while applying basic statistical techniques for data interpretation.

CodeAlpha Virtual Internship Program

Data Science Intern

Nov 2025 – Dec 2025

Applied Python to solve real-world data problems during a virtual data science internship, performing data preprocessing and exploratory data analysis (EDA) to identify patterns. Implemented machine learning models using Pandas and NumPy for efficient data manipulation and predictive analysis.

PROJECTS

Car Price Prediction | Python, Pandas, Scikit-learn

Developed a machine learning model to predict used car prices based on features such as brand, fuel type, and year. Executed data preprocessing and exploratory data analysis (EDA) to identify key factors affecting price and applied a Random Forest Regressor to improve prediction accuracy.

DNA Sequence Classification | Python, Scikit-learn

Designed a machine learning model to classify DNA sequences based on biological patterns. Conducted feature extraction and preprocessing on genomic datasets and developed a Support Vector Machine (SVM) classifier to classify DNA sequences.

SkillPulse | React.js, JavaScript, Node.js

Created a web-based platform that identifies and recommends the skills required to achieve users' target careers, with quiz-based assessments and progress tracking to support personalized skill development.

CERTIFICATIONS & ACHIEVEMENTS

- Data Science & Analytics – HP LIFE
- AI for Beginners – HP LIFE
- Fundamentals of Python – Infosys
- Data Analysis using Microsoft Excel
- Master Data Analysis (Python, EDA, SQL, Power BI/Tableau, ETL Basics) – Currently pursuing on Udemy
- First Prize – Paper Presentation, Dakshaa T26 National-Level Technical Symposium, KSR College of Technology (2026)
